

Mr. Joel Schatz
Tbilisi,
Hotel Iveria
Room N. 1402, tel. 2

Moscow, Sept. 12
930762

(930762)

Joel, I am writing to
you in taxi on the way
to airport, so excuse my
temp. There is no emergency delivery service,
as I discovered here while trying to send
rescued drops for Parker. So I am driving to
airport to find somebody there.

There are news:

1. F. Gerasimov came back very disappointed
and want to accomplish something;
Don will be interviewed by his Leningrad
correspondent (when I'll be there) for
his paper; he is in favor of doing
planned space-bridge slow-scan
(as we planned on the 9th) to do it on
the 16th. So, if you are ready to fly
to Moscow, ~~I'll start on 4 days~~ I'll start preparations (or
you'll order to do it without you) later,
(when you'll return to S.F.). Anyway,
we'll make on-going bridge with Kalinsky
Screen and Moscow. Paul on our side and
Ark Con. just on your side. It is already
reality, so I'm anxious to start doing it
practically.

2) I had a very good talk with Nancy who gave me worst letter for Harriet Crosby. Nancy is waiting from you a report, to include into the 6th issue of Surviving Together, which goes to press on Oct. 11.

She also expresses great interest in an idea to use all six issues of their journal as a research material for Diana's drawing of Real State of Soviet-American trade-exchanges; to accomplish it by February 7 and to open the 7th issue of the journal to connect East-West coast activists in U.S.A.

Nancy Graham will be in M. Neuf's tomorrow with me.

3). Leonid and I were invited to talk with architects about a Space of Contacts. When we mentioned M.-S.Fr. interactive city idea — they destroyed all their pre-drawings and today w'll have brainstorming on this subject.

Nancy said to me that creation of a special fund for my vision "M.forth" will be supported in America — we'll see. Be in touch. Joseph.
